### My Blueprint

My Blueprint is an extraordinary tool to be equipped with. Why? Well because this tool has everything you need to become ready for your future. For example, this tool helps you create a resume, pick your courses for high school, and help you pick a very nice college and university. This program also includes helping you save up for a phone and a car!!! If you thought that this program couldn't have gotten any better, Mrs. Borgfjord has put on a draw that you can enter for canteen bucks! If you ever have the chance to talk to Mrs. Borgfjord, you should ask her for an account. If you already have an account you should start and explore My Blueprint more. If I were to review this website/app I would give it a solid 4 Stars.

Why did the cow cross the road?

It wanted to go to the moovie!

# LVS Girls Basketball

By Jacelynn

We have mostly grade 8s on the team. On our team we have Tabitha, Mady, Brooklyn, Kristen, Leticia, Gloria, Maddy, Sadie, Alex, Tia, Kaylee. Our coaches are Ms. Weaver, Ms. Ethans, Ms. Hannah, and Ryle and Zoe. The girls' basketball team has had one win, and two losses since

# World War 2

By Michael and Drake

You can play this game on Xbox one and ps4. I play it on Xbox one s. The game is really fun to play with friends. What you do on the game is eliminate people to win and that is TDM. There are a bunch of other things to play like Dom, SAD, CTF, and a bunch more. I recommend that age 12 or older to play this game. I give the game a five-star rating.

# Video Game Review

Fortnight

By Everette

Aim of the game: You are at war with other online players to be the last player standing. You start with a pick axe and gain weapons and resources throughout the game.

The main character is your ps4 profile. I would rate this game hard because there are a lot of online players that try to kill you and take your resources. It's fun to play because its hard and you can play with your friends

And I would rate these game a 10 out of 10.
