**COVID-19 VACCINE  
BULLETIN #98****Eligibility**

All people aged 12 and up are now eligible to make their first or second-dose appointment. The date of the second appointment must be at least 28 days after the first vaccination. For more information, visit <https://manitoba.ca/covid19/vaccine/eligibility-criteria.html#second-dose>. Individuals can book online at <http://protectmb.ca> or by calling (toll-free) 1-844-MAN-VACC (1-844-626-8222).

**Vaccine Administration**

A total of 1,388,305 doses of vaccine have been administered in Manitoba.

**Appointments and Walk-Ins**

From today to Sunday, July 4, the Leila super site in Winnipeg will be offering walk-in Pfizer doses for youth aged 12 to 17. Approximately 330 doses will be available daily. In anticipation of significant demand, individuals in line will be given a colour-coded ticket, which will identify a time-slot later in the same day when they will be able to get their vaccine.

Parents, caregivers or other adults who have a booked Pfizer appointment can continue to transfer their appointment to a 12- to 17-year-old youth, through the provincial call centre.

All super sites, except RBC Convention Centre, are now offering walk-in appointments. The number of walk-ins may vary by day and by site, but are approximately 10 per cent of all doses available. It is important to note that a limited number of walk-ins are

available on a daily basis. Sites will continue to prioritize first-dose immunizations for walk-ins when possible.

Fifteen medical clinics and pharmacies are regional hubs for AstraZeneca vaccinations. Individuals can use the online vaccine finder at <https://manitoba.ca/covid19/vaccine/finder.html> to find a location with available doses.

A complete listing and searchable map of all vaccine sites, including urban Indigenous clinics and pop-up clinics, is available online at <http://protectmb.ca>. Eligible individuals can book their appointments at these sites online, or by calling (toll-free) 1-844-626-8222 (1-844-MAN-VACC).

### **Vaccine Supply and Distribution**

To date, 1,808,830 doses of vaccine have been delivered to Manitoba. This includes:

- 1,086,930 doses of the Pfizer vaccine;
- 630,140 doses of the Moderna vaccine; and
- 91,760 doses of the AstraZeneca vaccine.

Manitoba is expecting 5,850 doses of Pfizer vaccine to be delivered this week.

### **Additional Information**

To be considered fully immunized, individuals require two doses of vaccine. These can be the same or different brands of vaccine. Individuals who are fully vaccinated can now request a digital or physical immunization card. For more information, visit:

<https://manitoba.ca/covid19/vaccine/immunization-record.html#immunization-cards>.

People who received a COVID-19 vaccine outside of Manitoba should complete the e-form at <https://forms.gov.mb.ca/covid-immunization-record-request/> to update their immunization information. This e-form can also be used to request other updates or corrections to a COVID-19 immunization. Individuals may also contact their local public health office for assistance, if needed.

Manitobans are reminded to fill out a second consent form for their second-dose appointment. To fill out and print the consent forms before your appointment, visit:

<https://manitoba.ca/covid19/vaccine/resources.html#forms>.

More information about the vaccine campaign in Manitoba is available at [www.manitoba.ca/vaccine](http://www.manitoba.ca/vaccine) and <http://protectmb.ca>.

All data in this bulletin is current as of June 29 unless noted otherwise.
