

File EID

BUILDINGS AND GROUNDS INSPECTIONS

“The Principal must inspect the school premises and report any necessary repairs promptly to the Superintendent/Secretary-Treasurer of the School Board or other person designated for that purpose by the School Board, and must endeavour to ensure that the premises are properly cared for by the pupils of the school.” (M.R. 468/88-37)

School Principals shall ensure that regular inspections of school buildings and grounds, including playgrounds, be made. (See EIE-E1 to EIE-E5) The MSBA-MASBO **Playground Safety Manual** is a recommended resource in the performance of playground inspections.

The foregoing does not exempt the staff from their responsibility of reporting to the Principal conditions which they consider a safety hazard.
