ADMISSION OF EXCHANGE STUDENTS

The Board recognizes the value and contributions made by exchange students to the intellectual, social, and cultural milieu of a school. Accordingly, it supports an active student exchange program, providing there are no undue costs to the Division. The following factors will be considered by the Superintendent's Department in the student selection/approval process:

- a) space for accommodation;
- b) variety in the countries of origin;
- c) deployment throughout the Division.

Agencies or sponsoring families for the fall term of that year must submit all relevant information by June 1st.
